EXPERIENCE

Software engineer

Youchoz, Tlemcen

July 2024 – Present

- Led a small development team in rebuilding the company's entire platform from the ground up.
- Rebuilt the entire web application using **Angular**, improving performance, maintainability, and user experience.
- Implemented features such as voice descriptions to enhance accessibility and engagement.
- Introduced modern **UI/UX practices**, resulting in a more intuitive and polished user experience across web and mobile.

Full Stack Developer

Sougplus – Freelance

November 2024 – May 2025

- Architected and developed the entire Sougplus platform—an e-commerce marketplace with listings, product management, and user dashboards—from scratch using **Angular**, **NestJS**, and **MySQL**.
- Integrated **Stripe** for secure payments and **OAuth** for seamless user authentication.
- Built a custom **Strapi-powered blog** to drive SEO and content marketing, fully integrated with the main platform.
- Implemented responsive UI.
- Led full-stack development, from backend architecture to frontend components.
- Delivered a scalable, maintainable solution with clean code principles (SOLID, modular architecture, reusable components).

HIGHLIGHT PROJECTS

Service Provider Mobile App

Link: <https://github.com/sidahmedfrioui19/eartisan>

A mobile application that connects users with professionals like plumbers, electricians, and other service providers.

Technologies: Dart, Flutter

EDUCATION

Bachelors in computer science

University of abou bekr belkaid, Tlemcen.

2021 - 2024

Masters in software engineering

University of abou bekr belkaid, Tlemcen.

2025 - 2027

SUMMARY

Software Engineer specializing in frontend development with strong expertise in **Angular** and **Typescript**, passionate about crafting intuitive, accessible, and engaging user interfaces. Experienced with React, Svelte, and Astro, and dedicated to bridging the gap between design and development. Skilled in collaborating with cross-functional teams to deliver seamless, user-centric web applications.

OBJECTIVE

To apply my frontend expertise and passion for UI/UX in building intuitive, high quality web applications within a collaborative team.

SKILLS

Frontend: HTML, CSS, JavaScript, Typescript, Angular, React, Svelte, Astro, Tailwind, PrimeNG

Backend: NestJS, Express, REST APIs, WebSockets, Firebase Functions

Databases: MySQL, PostgreSQL, MongoDB, Firestore

Mobile: Flutter, React native

Testing: Jasmine, Jest, TDD

Tools: Git, GitHub, Gitlab, Jira
